PUBLIC NOTICE Notice of Intent to File

Please take notice that Pasquale Candelmo, 536 Old Eastport Road, Perry, Maine 04667, tel. 207-853-4122, is intending to file a Natural Resources Protection Act permit application with the Maine Department of Environmental Protection pursuant to the provisions of 38 MRSA §§ 480-A through 480-BB on or about June 20, 2014.

The application is for shoreline stabilization at the following location: 536 Old Eastport Road, Perry, Maine 04667.

A request for a public hearing or a request that the Board of Environmental Protection assume jurisdiction over this application must be received by the department in writing, no later than 20 days after the application is found by the department to be complete and is accepted for processing. A public hearing may or may not be held at the discretion of the Commissioner of Board of Environmental Protection. Public comment on the application will be accepted throughout the processing of the application. For federally licensed, permitted, or funded activities in the Coastal Zone, review of this application shall also constitute the state's consistency review in accordance with the Maine Coastal Program pursuant to Section 307 of the federal Coastal Zone Management Act, 16 USC § 1456.

The application will be filed for public inspection at the Department of Environmental Protection's office in Bangor during normal working hours. A copy of the application may also be seen at the municipal offices in Perry, Maine.

Written public comments may be sent to the regional office in Bangor where the application is filed for public inspection: MDEP, Eastern Maine Regional Office, 106 Hogan Road, Bangor, Maine 04401.

NOTICE TO ALL INTERESTED PERSONS Determination of Categorical Exclusion

To: All Interested Persons

Date Issued: March 31, 2014

As required by Section 6 of the State of Maine Rules Relating to Drinking Water State Revolving Loan Fund Chapter 230, the Department of Health and Human Services (DHHS) staff prepared a "Justification for Categorical Exclusion" on behalf of Passamaquoddy Water District of Eastport, Maine to exempt a proposed project from the formal environmental review requirements.

The proposed action is the replacement of water mains on Boynton, Dana, Green, Sullivan Streets, Prince, Spear, Stevens Avenues, Barren, Staniels and Paispearl Roads, Burns and Woodman Place.

The Drinking Water Program's review of the proposed actions has indicated that it meets the criteria of "Categorical Exclusion" listed in subsection c (II) of Chapter 230. The project is not likely to have significant effects on the quality of the environment. Specifically, the proposed action is to replace water main in the same general location as existing water main.

Therefore, a Categorical Exclusion from formal environmental review as provided in Section 6 of State of Maine Rules Relating to Drinking Water State Revolving Loan Fund Chapter 230 is being granted. This exclusion may be revoked at any time if 1)the project is altered and no longer meets the requirements of a categorical exclusion, 2)new evidence shows that serious environmental issues exist, or 3)a local, State or Federal law is being or may be violated.

Project documents are on file and are available for public review at the offices of Passamaquoddy Water District and the offices of Drinking Water Program. Comments relative to this decision may be submitted to the Department of Health and Human Services Drinking Water Program.

UNITED STATES OF AMERICA FEDERAL ENERGY REGULATORY COMMISSION Pennamaquan Tidal Power LLC Project No. 13884-002 Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions to Intervene, and Competing Applications

(April 1, 2014)

On March 12, 2014, Pennamaquan Tidal Power LLC filed an application for a successive preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the Pennamaquan Tidal Power Plant Project to be located on the Pennamaquan River and Cobscook Bay, Washington County, Maine. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of: (1) a new tidal barrage extending from Leighton Neck to Hersey Neck consisting of: (a) two 5-foot-thick concrete walls, one 545-foot-long and one 135-foot-long, located in the intertidal area at each end of the barrage; (b) six 82-foot-long, 10-foot-thick concrete modular wall panels extending about 22 feet above mean low tide; (c) a new 438-foot-long, 91-foot-high concrete powerhouse with 16 reversible bulb generating units with a total capacity of 24.0 megawatts; (d) a new steel 65-foot-long, 44-foot-wide boat lock integral with the powerhouse; (2) a tidal basin (i.e., impoundment) with a surface area of 489 acres at low tide and 862 acres at high tide; (3) a new 328-foot-long utility road providing access from Hersey Neck to the powerhouse; and (4) a new 35-kilovolt, 2.5-mile-long transmission line to Emera Maine's substation in Pembroke, Maine. The project would produce an estimated average annual generation of 80,000 megawatt-hours.
